

Agilent 34398A RS-232 Cable Kit

Agilent 34398A RS-232 Cable Kit Contains a 9-pin female to 9-pin female Null Modem (printer) cable and one adapter. Use the cable and adapter to connect Agilent instruments with 9-pin male RS-232 connectors to most PCs or printers. The cable kit contains:

- Null modem cable, 9-pin F to 9-pin F, Agilent Part Number F1047-80002.

Products Tested The following Agilent instruments have been tested to operate properly with a PC, printer, and modem using the cable and adapter kits.

- 33120A Function Generator/Arbitrary Waveform Generator
- 34401A Multimeter
- 53131A Universal Counter

Cable and Adapter Pin Diagrams The following diagrams show the pin connections for the Null Modem cable (part number F1047-80002) with each of the adapters.
